Antifreeze

9.58000

DT Spare Parts Antifreeze 9.58000 is a coolant with an ethyl glycol base, suitable for all common engines, through to modern, high-power aluminium engines for which a silicate-free product is required. It provides all-year-round protection for the cooling system, while protecting all of the metallic materials within the system. It is environmentally-friendly as it is free from nitrite, amine, phosphate and silicate.

Mixing table:	Frost protection until	-19°C	-24°C	-35°C	-37°C
Antifreeze GW 12	Vol. %	30	40	45	50
Tap water	Vol. %	70	60	55	50

Specifications:

- VW/Audi/Seat/Skoda TL774-D/F (G12/12+)
